Desired Benefits A fast device that supports multitasking, is lightweight and portable, and suitable for daily use in study.

Targeting

We mainly focus on tech users starting with Gamers Freelancers and University Students in addition to the business (B2B)that relies on devices for daily operations as well as tech communities and influencers who help us reach more use reach a larger audience both online and offline.

Primary Gamers / Freelancers

This segment has been selected as the primary target audience for the following reasons: High Spending Power This segment is willing to pay higher amounts for strong performance and high quality, as the device is essential for their gaming or professional work. Repeat Purchases They frequently upgrade their devices (e.g., GPU, RAM, and storage), ensuring continuous sales over time. Focus on Value, Not Just Price They aim to get the best performance within their budget and often seek expert advice before making a purchase decision. Customer Loyalty When provided with good overall experience (product + service), they are more likely to become loyal customers and make repeat purchases. Strong Influence on Others They have a strong influence within their communities (friends, colleagues, and online groups), which helps attract new customers through recommendations.

Primary Segment 2-(B2B)

This segment has been targeted as a primary audience for the following reasons

Higher deal value Devices are often purchased in bulk, increasing the overall sales value.

Recurring and consistent demand: Companies regularly require device upgrades and ongoing maintenance for their employees.

Clear operational needs: Businesses rely on reliable devices to ensure efficient and stable daily operations.

Long-term relationships: Opportunities to build ongoing partnerships through supply and maintenance contracts.

Priority on speed and technical support: Companies often value after-sales service and fast support more than price alone

Secondary Students

This segment has been selected as a secondary target audience for the following reasons: Large Market Size This segment represents a wide portion of the market, helping to increase overall sales volume.
Easy to Target They can be easily attracted through offers, discounts, and installment plans. Consistent Demand They continuously need devices for studying or daily work purposes. Simpler Purchase Decisions They do not rely heavily on complex technical details, making them easier to convince. High Price Sensitivity They prefer budget-friendly options, which require delivering clear value for money

Positioning

Epic Tech is the ideal choice for those seeking high-performance combining powerful technology with affordable pricing while delivering a reliable and seamless purchasing experience supported by real

expertise and direct technical support.
Through clear educational content and smart tools, it helps customers make the right decisions and build their dream PC with complete confidence and security.

Positioning Pillars

Performance Driven:
Powerful devices capable of running the latest games and software efficiently and smoothly.
