Marketing Channels Overview (Required)

(أ.محمد أسعد)

Short Marketing Goals (SMART) – First 3 Months

(أولا)

Since Epic Tech is a newly launched brand, the first three months will focus on building brand awareness, generating the first sales, and establishing credibility within the Egyptian PC hardware market.

All marketing goals follow the SMART framework (Specific, Measurable, Achievable, Relevant, Time-bound).

Brand Awareness Goal

Increase brand awareness in the Egyptian gaming and PC hardware community by growing Epic Tech's presence on social media platforms.

Targets for the first 3 months:

• Reach 3,000 – 5,000 followers on Facebook • Reach 1,500 – 3,000 followers on Instagram • Reach approximately 2,000 followers on TikTok

These targets will be achieved through consistent content creation, gaming-related videos, educational tech content, and interactive posts.

Sales Goal

Generate the first consistent revenue stream for the business.

The realistic target for the first three months is:

20 – 30 completed sales per month.
In the early stages of the business, many customers prefer purchasing individual PC components or accessories instead of full PC systems.
Therefore, Epic Tech will focus on selling:
• Individual PC components • Gaming accessories and peripherals
Additionally, a marketing strategy will be used to promote strong computer components as part of attractive PC build bundles.
For example, a powerful graphics card or processor can be promoted within a full PC build offer at a competitive price. This encourages customers to purchase the entire build rather than buying only a single component.
This strategy helps:
• Increase average order value • Simplify purchasing decisions for customers • Introduce customers to the brand's custom PC build service
Customer Inquiry Goal
Increase potential leads and customer inquiries through messaging platforms. Target:
Receive 5 – 10 customer inquiries per day through Facebook Messenger and WhatsApp. These inquiries may include:

• Product questions • PC build consultations • Purchase requests

Social Media Engagement Goal

Build strong interaction with the audience by producing engaging and educational content.

Target:

Achieve an average engagement rate between 4% – 8% on social media posts during the first three months.

This will be achieved through:

• PC build videos • Gaming performance demonstrations comparing different PC components that customers often hesitate between, while explaining which option is best for each budget category.

• PC hardware recommendations for different budgets and use cases such as gaming, productivity, or content creation.

• Short educational technology videos explaining hardware concepts in a simple way.

Content Strategy Goal

Establish a consistent and engaging content presence on social media platforms. Content will include:

• PC build videos • Gaming performance demonstrations • Hardware comparison videos • Technology education content

Additional content strategies include:

• Appearing with the team members in some videos to create a more human and relatable brand image. Some videos may include light and entertaining moments to make the content more engaging.

• Featuring a main recognizable personality who appears regularly in videos, provides technical advice, and builds a strong connection with the audience. Over time, this personality can become the public face of the company.

• Collaborating with popular PC hardware reviewers and influencers in order to increase reach and credibility.

Examples include: Bilal – N Tech
https://www.youtube.com/@N-TECH
Mohamed Samih – Epic Hardware
https://www.youtube.com/@epichardware98
Ahmed Arif – Ahmed Arif
https://www.youtube.com/@AhmedArifTube

Working with well-known reviewers helps increase audience trust, expand reach, and strengthen the credibility of the products being presented.

Marketing Channels Overview

Marketing Channels Overview : Computer Systems & Hardware

1. Facebook – "Community & Conversions"

Facebook is the best platform for reaching a diverse age range and driving direct sales.

- **Primary Goal: Building trust, customer service, and selling pre-built systems or laptops.**
- **Content Types:**
  - **Facebook Groups: Engaging in hardware and gaming communities to showcase builds.**
  - **Marketplace: Listing new or used inventory for local buyers.**
  - **Reviews: Highlighting customer testimonials to build brand credibility.**
- **Competitive Edge: Powerful ad targeting for parents (educational PCs) or professionals (workstations).**

2. Instagram – "The Visual Showcase"

Instagram focuses on the "look" of the product; here, a PC isn't just a machine—it's a piece of art, especially RGB gaming setups.

- **Primary Goal: Showcasing build quality (Aesthetics) and attracting gamers and creators.**
- **Content Types:**
  - **High-Quality Photos: Professional shots of hardware components (GPUs, Liquid Coolers).**
  - **Stories: "Flash Sales" or "Behind the scenes" in the showroom to drive daily engagement.**
  - **Reels: Fast-paced unboxing videos or "Before & After" assembly clips.**
- **Competitive Edge: Ideal for influencer collaborations within the tech and gaming niches.**

3. TikTok – "Viral Reach & Education"

TikTok is where you get massive reach by being authentic, educational, and following trends.

- **Primary Goal: Mass brand awareness and establishing technical authority.**
- **Content Types:**

- Tips & Tricks: Short clips (e.g., "How to boost your FPS," "Choosing the right GPU").
- ASMR Builds: Relaxing videos of the assembly process with satisfying hardware sounds.
- Challenges: Educational challenges like "Best $500 PC Build Challenge."

- Competitive Edge: High potential for organic growth (viral reach) without needing a huge ad budget.

Strategic Summary:

Platform	Core Role	Target Audience
Facebook	Direct Sales & Support	Families, Professionals, Serious Buyers
Instagram	Visual Branding	Gamers, Designers, Youth
TikTok	Viral Education & Fun	Gen Z, Tech Enthusiasts

1. فيسبوك (Facebook) - "المجتمع والصفقات"

فيسبوك هو المنصة الأنسب للوصول لفئات عمرية متنوعة ولإتمام عمليات البيع المباشرة .

الهدف الرئيسي :

بناء الثقة ، خدمة العملاء ، وبيع الأجهزة الجاهزة

أنواع المحتوى :

Facebook Groups: الانضمام لمجموعات

لعرض التجميعات "Gamers"و "Hardware's"

Marketplace: عرض الأجهزة (مستعملة أو جديدة) للبيع المحلي

Reviews: التركيز على تقييمات العملاء السابقين لبناء مصداقية الشركة .

أقوى نظام إعلانات لاستهداف الآباء (لشراء أجهزة للدراسة) أو المهنيين (لأجهزة العمل). : الميزة التنافسية

2. إنستجرام (Instagram) - "الواجهة الفاخرة"

إنستجرام يعتمد على "شكل" المنتج؛ الكمبيوتر ليس مجرد آلة، بل قطعة فنية خاصة تجميعات الـ

RGB

- الهدف الرئيسي : استعراض جودة التقفيل (Aesthetics) وجذب جمهور الشباب والـ Gamers.
- أنوع المحتوى :
  - High-Quality Photos: صور احترافية لقطع الهاردوير (كروت الشاشة، المبردات المائية).
  - Stories: عروض "لفترة محدودة" أو "صورة من داخل المعرض" لزيادة التفاعل اليومي.
  - Reels: فيديوهات سريعة لفتح الصناديق (Unboxing) أو "قبل وبعد" تجميع الجهاز.
- الميزة التنافسية: منصة مثالية للتعاون مع "الإنفلونسرز" في مجال التقنية والألعاب.

3. تيك توك (TikTok) - "الانتشار السريع والتعليم"

تيك توك هو المكان الذي ستحصل فيه على ملايين المشاهدات إذا قدمت محتوى ذكياً وعفوياً.

- الهدف الرئيسي: الانتشار الواسع (Brand Awareness) وإثبات الخبرة التقنية.
- نوع المحتوى:
  - Tips & Tricks: فيديوهات قصيرة (كيف تزيد سرعة جهازك؟، كيف تختار كارت الشاشة المناسب؟).

- فيديوهات مريحة للأعصاب لعملية ASMR Building: تركيب قطع الكمبيوتر مع أصوات حقيقية.
- تحديات مثل "أقوى تجميعة بـ 500 دولار" Challenges :.

الوصول لجمهور ضخم جداً "مجاناً" (بدون : الميزة التنافسية . إعلانات ممولة) إذا كان المحتوى جذاباً ومواكباً للتريندات.

: ملخص الاستراتيجية المقترحة

الجمهور المستهدف	الدور الأساسي	المنصة
العائلات، الموظفين، والمشترين الجادين	البيع المباشر والدعم	فيسبوك
الجيمرز، المصممين، والشباب	إبهار بصري وبناء براند	إنستجرام
والمهتمين (Gen Z) الجيل الجديد بالتقنية	شهرة وتعليم وتسلية	تيك توك
